IZADI VAN IZ KUĆE. Što vidiš?
Nacrtaj to!

A series of horizontal lines for writing, with a small drawing of a pencil at the bottom right.

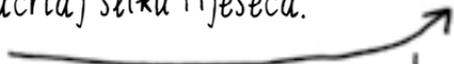

Navečer pogledaj kroz prozor i pokušaj vidjeti Mjesec. Možeš li?

DA!

NE...

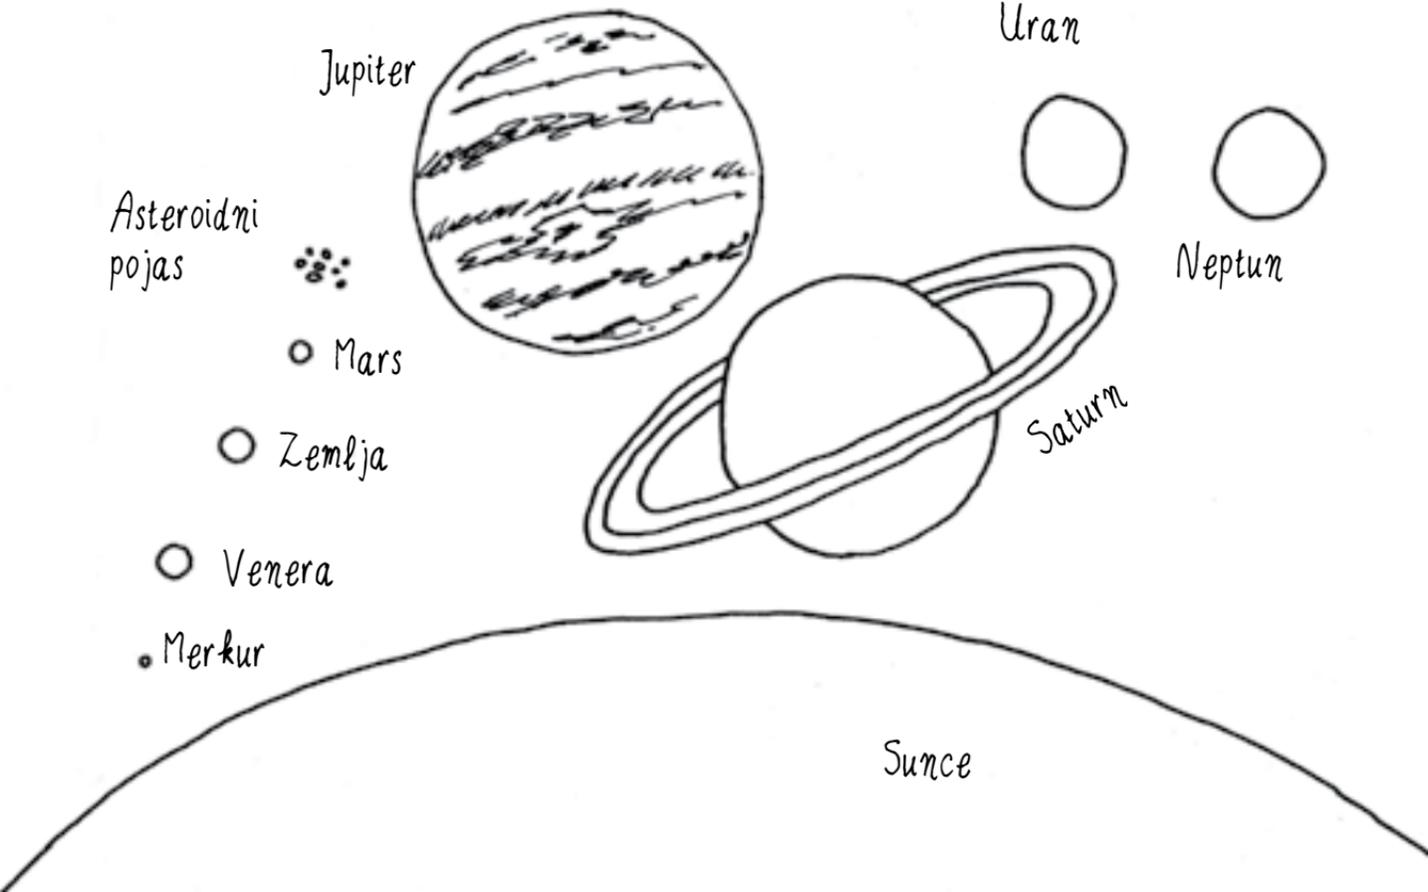

Ako ne napiše zašto?

Ako ga ne vidiš, pokušaj drugu večer dok ga ne vidiš i nacrtaj sliku Mjeseca.

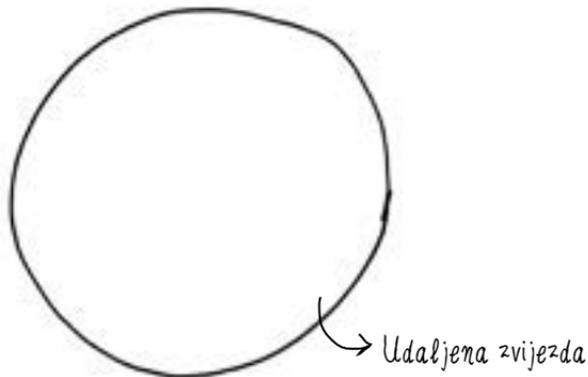

Velicine u našem Sunčevu sustavu:

Oboji Sunčev sustav!

Astronomi su pronašli stotine
PLANETA koji su izvan našeg
Suncevog sustava. Ovi planeti se gibaju
oko drugih zvijezda u našoj galaksiji.

Zamislite neke **NOVE PLANETE**
oko udaljene zvijezde. Koje
boje je zvijezda? Koliko
planeta se giba oko nje?
Nacrtaj!

Napiši pjesmu o svom omiljenom planetu.

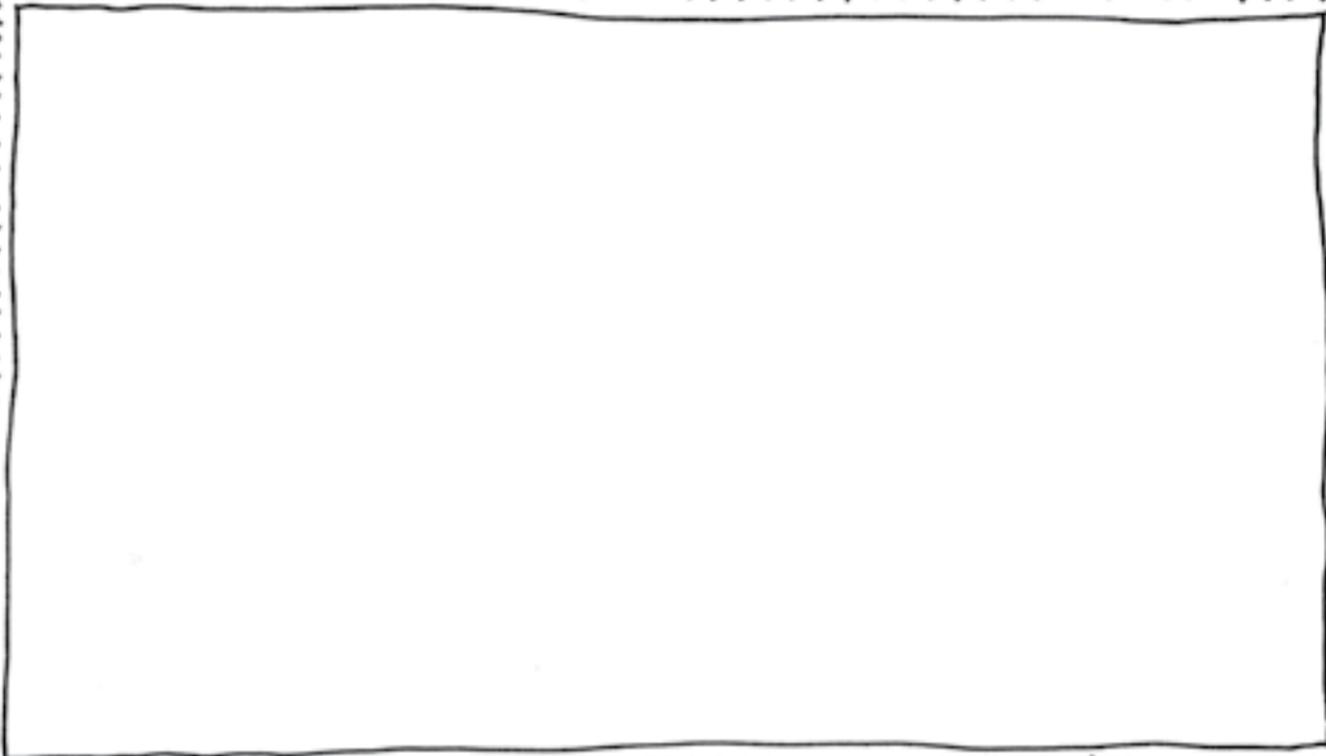

naslov:

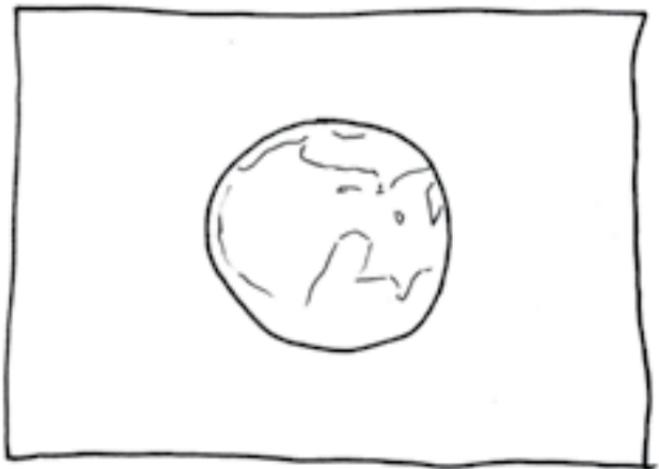

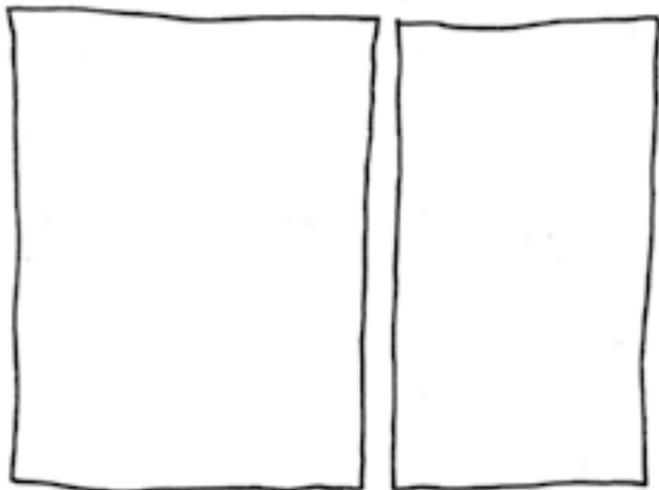

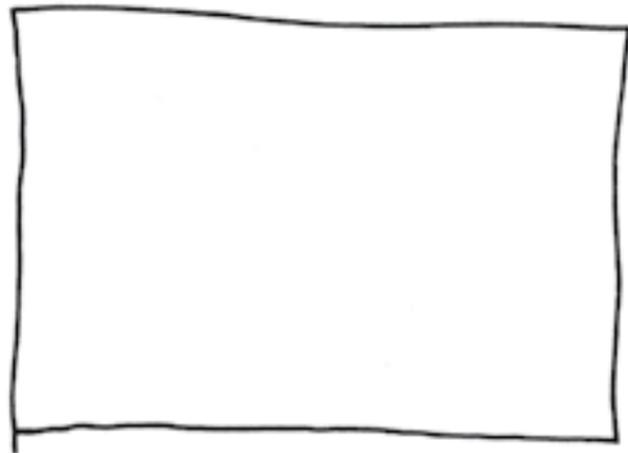

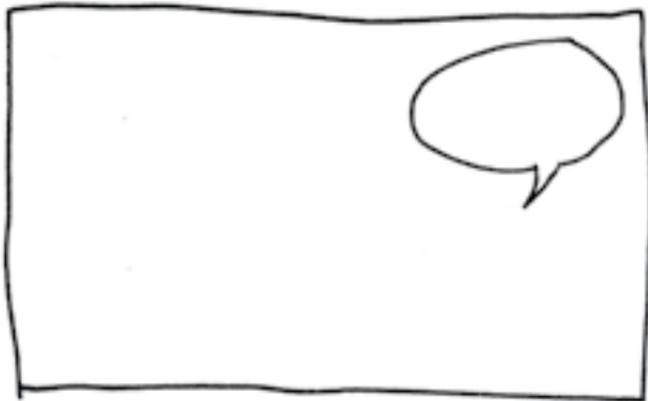

Pronašao si novi nevjerovatan planet.
Nacrtaj ga! Kako se zove? Žive li neke
životinje i biljke na njemu?

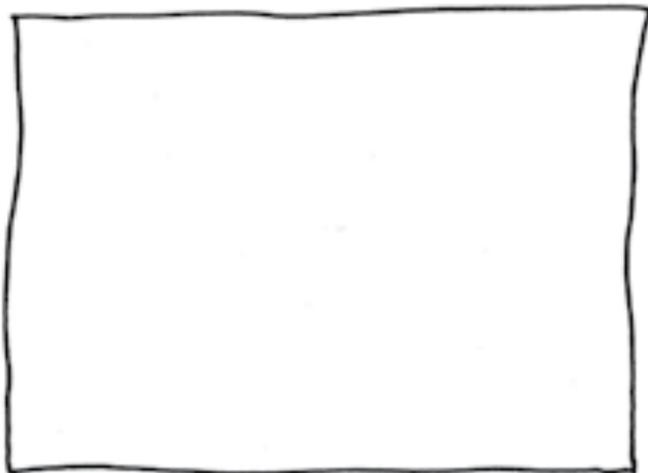

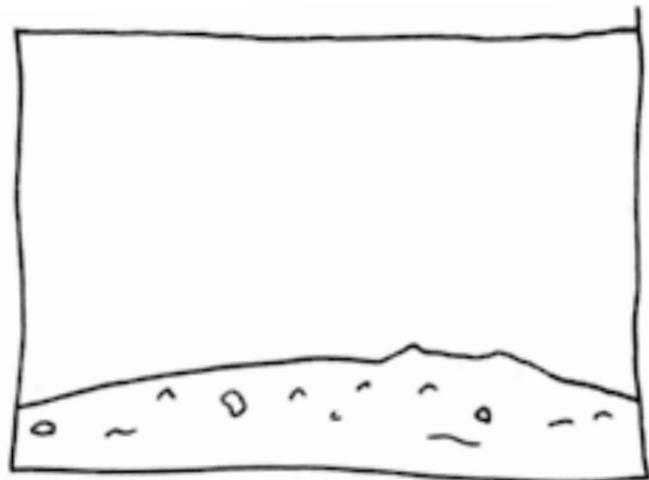

Znanstvenikova skica novootkrivenog
planeta nazvanog: _____

(napiši ime planeta ovdje)

**NACRTAJ STRIP O SVOM PUTU
NA PLANET MARS!**

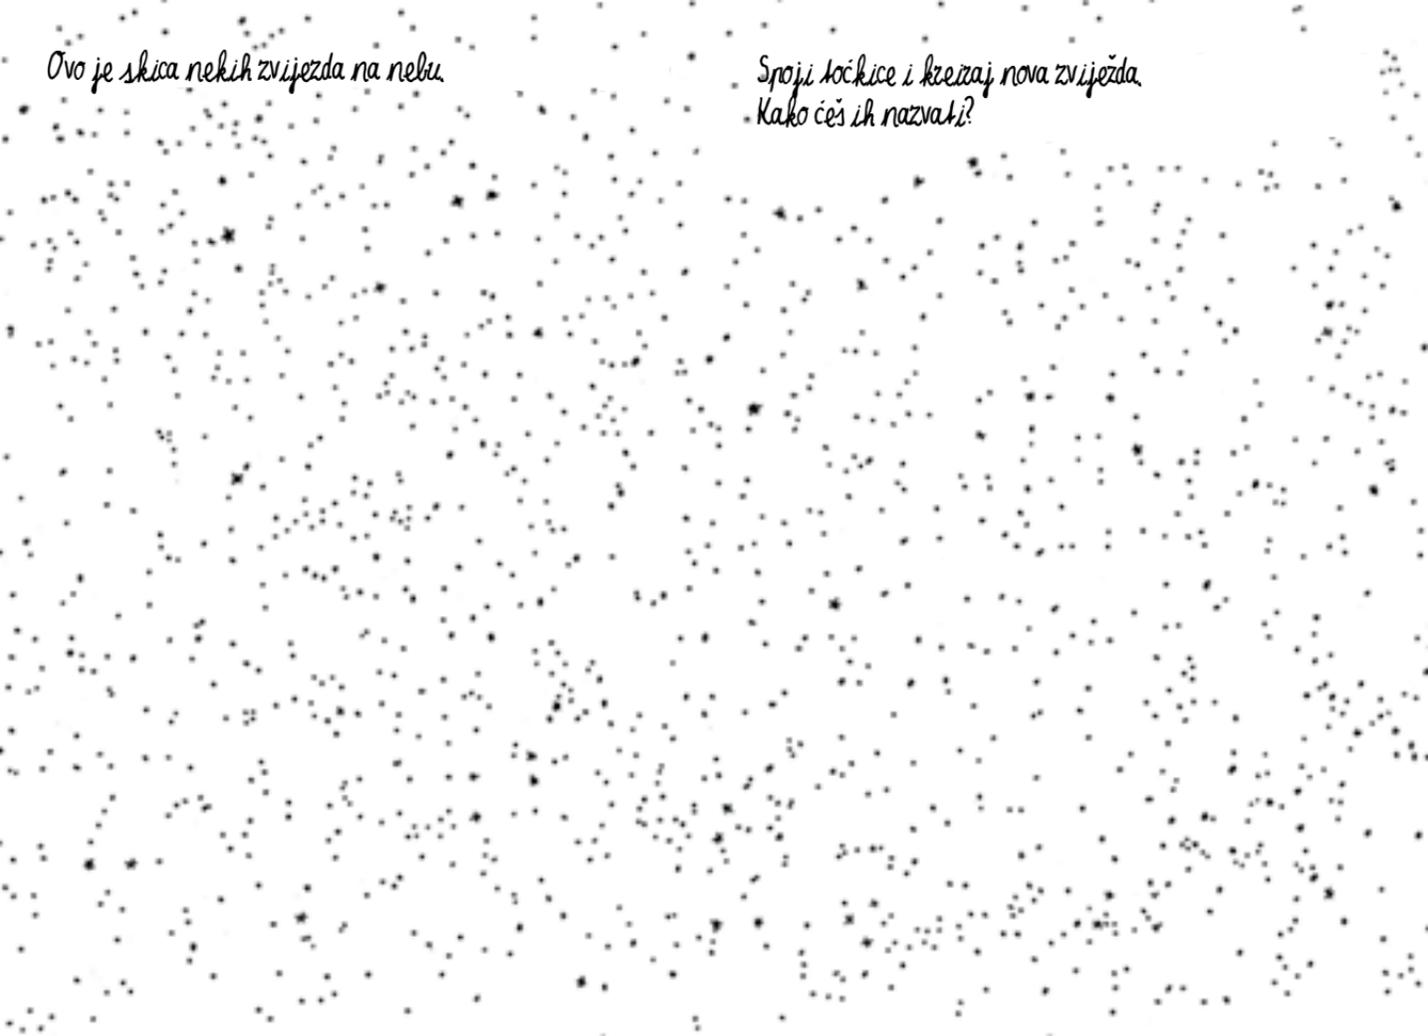

ZVIJEŽDA su slike objekata, životinja i ljudi na noćnom nebu nastala spajanjem zvijezda zamišljenim linijama.

Ovo su neke zvijezda. Probaj ih pronaći na noćnom nebu!

Ovo je skica nekih zvijezda na nebu.

Spoji točkice i kreiraj nova zvijezda.
Kako ćeš ih nazvati?
